FREE Access 24/7

Uplink: The easiest way to share temperature recorder data

- Cargo Data's FREE KoldLink app automatically sends temperature recorder data to Cargo Data's cloud server
- Data is immediately available for viewing, printing, and emailing from the Cargo Data website
- Saves time and money by eliminating need for Receivers to distribute temperature charts
- Uplink data is non-editable and simplifies resolution of disputes
- Eliminates paper-based filing and other back office inefficiencies
