

1 Any Cargo Data Temperature Recorder

As soon as the trucks arrive, the shipping data is transmitted.

2 Receiving Dock Computer

Then it is uploaded to the cloud server.

3 Cloud Data Server

UpLink

Sharing temperature data has never been easier

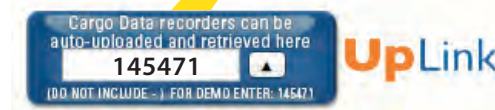

Now the shipping data is available to anyone!

4 Data Access at cargodatacorp.com

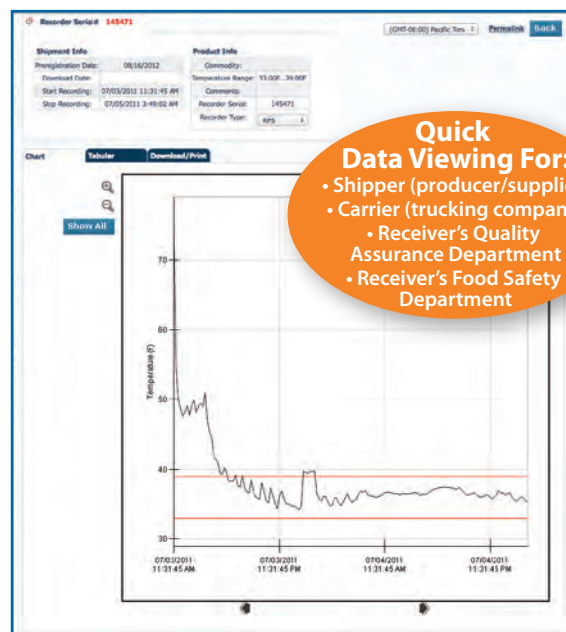

Just enter the recorder serial number!

No Password Required!

UpLink: The easiest way to share temperature recorder data

- Cargo Data's FREE KoldLink app automatically sends temperature recorder data to Cargo Data's cloud server
- Data is immediately available for viewing, printing, and emailing from the Cargo Data website
- Saves time and money by eliminating need for Receivers to distribute temperature charts
- UpLink data is non-editable and simplifies resolution of disputes
- Eliminates paper-based filing and other back office inefficiencies
- The most innovative temperature data sharing system in the industry

Quick Data Viewing For:

- Shipper (producer/supplier)
- Carrier (trucking company)
- Receiver's Quality Assurance Department
- Receiver's Food Safety Department
