Quality USB™

Quality USB temperature recorders are designed to provide reliable temperature monitoring for domestic and overseas shipments. The micro USB 2.0 interface is supported globally. **Quality USB** is a perfect replacement for obsolete strip chart recorders and provides unmatched reliability, accuracy, and flexibility. **Quality USB**'s small size makes it ideal for slipping inside shipping cartons.

Quality USB is ideal for use in the transportation of products for the perishable foods, floral, chemical, and pharmaceutical industries.

Data from **Quality USB** is supported by Cargo Data's free **KoldLink App**.

Quality USB
BY CARGO DATA

Features:

- Audible locating beeper – Optional
- LCD display
- Moisture protective pouch
- Small enough to place inside shipping cartons
- Standard or custom ranges available, LED alerts
- Available in 10, 20, 40, 60, and 80 day recording periods
