

# Orange Wedge™

*It's About Time and Money.*

Actual size: 3" x 1.6" x .75"

## Orange Wedge™

**Orange Wedge** is designed to monitor temperatures during cross docking or product transfers within inter-company distribution networks. **Orange Wedge** is a perfect replacement for obsolete strip chart recorders and provides unmatched reliability, accuracy, flexibility and low cost.

**Orange Wedge** is ideal for inter-company transfer of perishable foods, floral, chemical, and pharmaceutical products.

### Maximize Efficiency

**Orange Wedge** can bring new efficiency to Receiving and QA operations by docking with the optional **Express** handheld data retrieval device. **Express** provides chart and tabular data viewing within 5 seconds.

patented

### Features:

- Moisture protective pouch
- Standard and custom ranges available
- Out of Range LED alert
- Available in 10, 20, 40, 60, and 80 day recording periods
- Download directly to PC via cable or into **Express**
- **Orange Wedge** and all other Cargo Data products utilize standard interfaces – no proprietary readers, printers, or cords required
- **KoldLink App** compatible. **KoldLink App** provides chart viewing, management reports, email data sharing, and data archiving
- The optional **Uplink** feature within **KoldLink App** provides cloud-based data access and storage on the secure Cargo Data server
- Along with **Boomerang Reusable**, **Orange Wedge** is designed specifically for inter-company transfers and cross docking
